

## W2: In case you are using a Mac to connect to the server

### In Terminal:

- ▶ Connect to the server `ssh id@server`
- ▶ Create a folder on the server `mkdir -p COMP90041/w2`
- ▶ Upload a file from your Mac to the server  
`scp source_file id@server:/storage1/beta/students/X/id/`

For all commands, replace

- ▶ `id` with your student login, e.g., `jhuang5`
- ▶ `X` with the first letter of your student login, e.g., `j`
- ▶ `server` with the server url, e.g., `dimefox.eng.unimelb.edu.au`
